Mr. Alvin D. Malott
Rural Route #1
Gower, MO 64454

Dear Mr. Malott:

Enclosed is a well conversion form (OGC-8) for converting the Malott #1 to a water well. Additionally, a water well record form is attached for completion. Please fill out both forms to the best of your knowledge. This should satisfy the filing requirements for the Missouri Oil and Gas Council. If the returned forms are satisfactory, I will release the \$2000 certificate which was held for a surety bond.

If you have any questions, please feel free to call on me.

Sincerely,

WELLHEAD PROTECTION SECTION

INSTRUCTIONS

On the above plat, show distance of the proposed well from the two nearest section lines, the nearest lease line, and from the nearest well on the same lease completed in or drilling to the same reservoir. Do not confuse survey lines with lease lines. See rule 10 CSR 50-2.030 for survey requirements. Lease lines must be marked.

This is to Certify that I have executed a survey to accurately locate oil and gas wells in accordance with 10 CSR 50-2.030 and that the results are correctly shown on the above plat.

WELL CONVERSION AGREEMENT

FORM OGC-8

This agreement is made this 12 day of Dec., 19 90, between _____ of _____, owner of the following described well or test hole, hereinafter called "operator," and _____ of _____, owner of surface rights to the land on which the following described well or test hole is situated, hereinafter called "landowner."

WHEREAS operator has drilled or has caused to be drilled a test well for oil and gas, or has operated a producing well, which well is known as MALOTT #1 and is located TNP Block 56 Range 32 Sec 19, CLINTON County, Missouri;

WHEREAS operator desires to plug and abandon said well or test hole in a manner approved by the Missouri Oil and Gas Council;

WHEREAS landowner desires to employ said well or test hole as a source of potable water for the beneficial use of himself or himself and others;

NOW THEREFORE, it is agreed that operator shall plug the hole in accordance with the rules, regulations and instructions of the Missouri Oil and Gas Council except that no plug shall be set at the surface in said well or test hole nor shall surface pipe be cut off below plow depth, thus facilitating the use of the well or test hole as a water source well.

Landowner hereby acknowledges that the operator will be released by the Missouri Oil and Gas Council from future liability for further plugging which may be required by the Council and accepts full responsibility for the operation of the well or test hole as a water well and for the proper plugging and abandonment thereof when its use for this purpose has ended.

Mr. Malott:

On February 8, 1984 the following wells was permitted to Alvin D. Malott.

<u>Lease Name & Number</u>	<u>Location</u>	<u>County</u>	<u>Permit Number</u>
Malott #1	Sec.19,T56N,R32W	Clinton	20004

I have not received a plugging report (OGC-7) or a completion report (OGC-5) on this well. If this well has not been drilled, let me know. If you wish to cancel this well, please advise.

Since this information is already overdue, please respond within 2 weeks. Attached you will find 2 excerpts from the Oil and Gas Council Rules and Regulations that pertain to your situation.

Please let me know the status of this well and your intentions for same.

I will be looking forward to hearing from you in the near future.

Sincerely,

Bruce W. Netzler, Geologist
